NBCA **Workforce Pipeline Initiative**

Building Legacy. Constructing Futures.

A fully operational workforce dispatch system connecting vetted workers, active job sites, and apprenticeship funding — built and ready to run.

Made with GAMMA

The Problem

Three critical assets exist — but have never been systematically connected:

Contractors Are Short-Staffed

Job sites consistently lack reliable, vetted labor — creating daily delays and missed opportunities.

Workers Are Ready

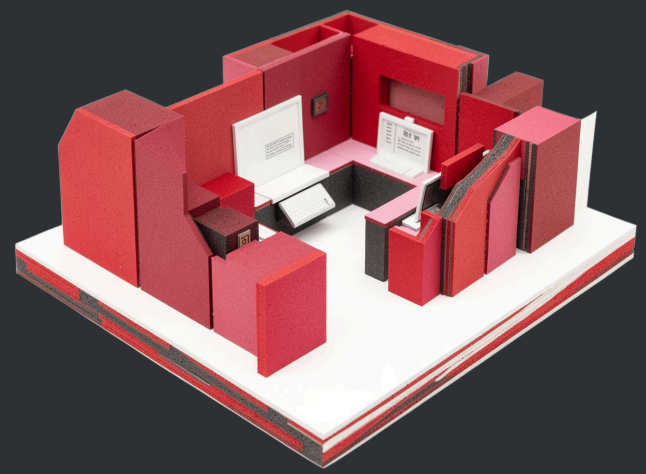
Our community has trained, motivated workers available — with no structured pathway to placement.

Funding Is On the Table

NBCA's apprenticeship program generates **$0.77 per verified hour** — tied directly to tracked time on site.

Made with GAMMA

The Solution



A Controlled Workforce Pipeline

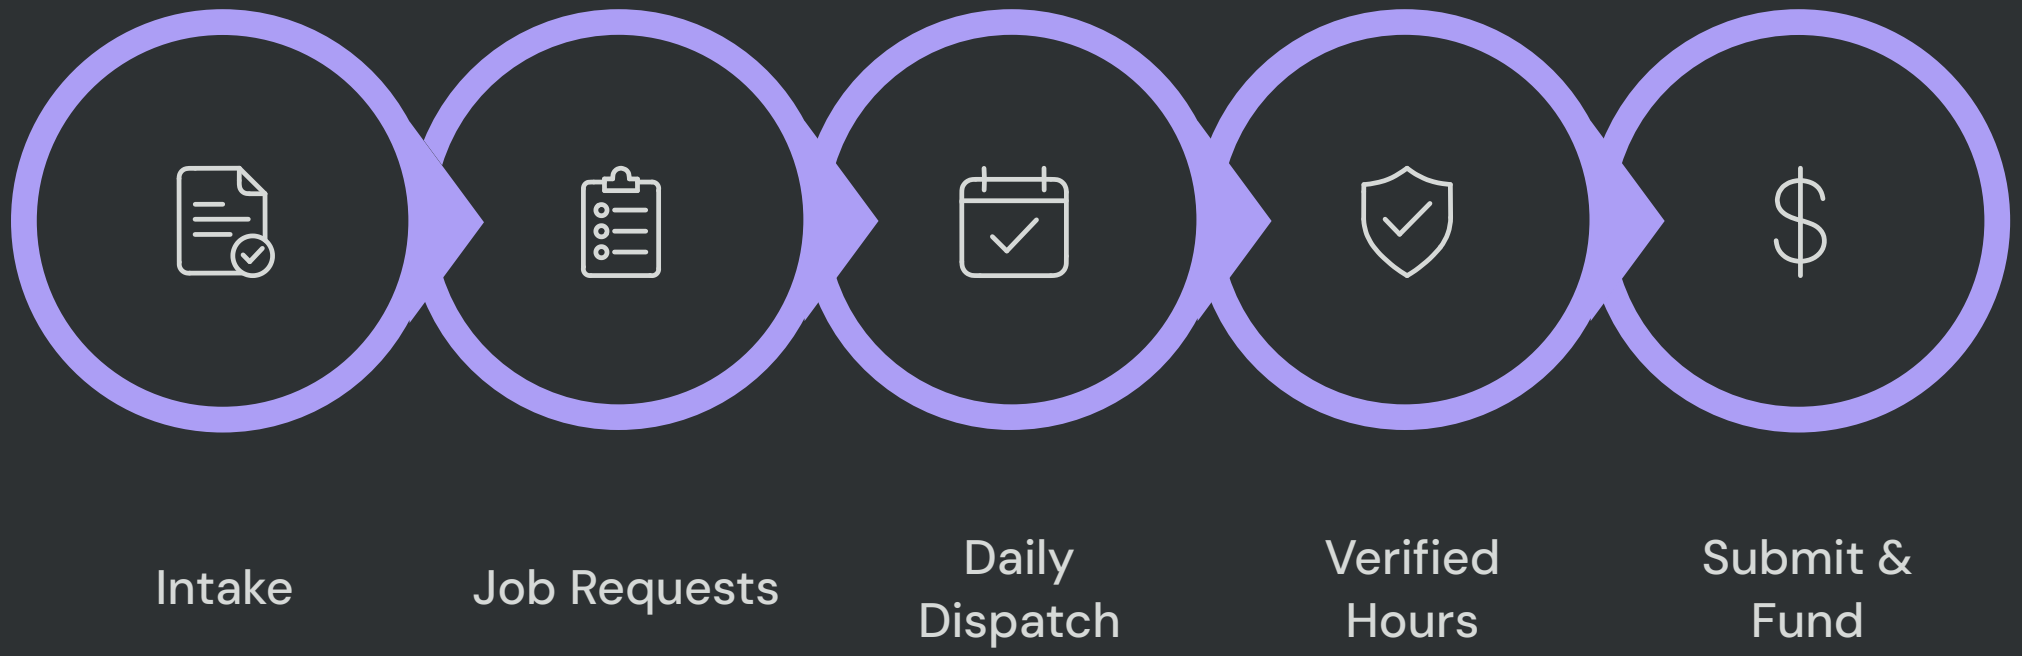
A daily dispatch operation that systematically moves:

1. **Workers**
   Vetted, scored, and ready for placement
2. **Jobs**
   Active sites with verified demand
3. **Hours**
   Tracked and supervisor-verified daily
4. **Funding**
   Triggered automatically at $0.77/hr

Made with GAMMA

Operational Flow

Every placement follows a disciplined, repeatable five-step process — from intake to funding.



This structured sequence eliminates gaps, ensures accountability at every stage, and creates a system that scales predictably as volume grows.

Made with GAMMA

Demand Engine

Demand is not passive — it is actively generated every day through multiple channels:

Field Outreach & Contractor Contact

Daily visits to active job sites and consistent contact with contractor lists keep new opportunities flowing in continuously.

Property & Subcontractor Channels

Property management relationships and subcontractor gap coverage expand reach beyond traditional job boards.

Referral Loops & Repeat Engagement

Speed of response and worker reliability build trust — turning one-time placements into ongoing contractor relationships.

Made with GAMMA

Workforce Control

Performance-Driven Placement

Every worker is scored **0–100** across three core dimensions:

A **5-tier system** prioritizes top-performing workers for premium placements — rewarding reliability and raising the bar across the workforce.

Attendance

Consistent presence builds contractor trust and site reliability.

Punctuality

On-time arrivals protect job timelines and contractor relationships.

Supervisor Feedback

Real-time field evaluations ensure continuous quality improvement.

Made with GAMMA

Infrastructure Already Built

23 operational documents are complete and ready to deploy — this is not a plan, it is a system.

Intake & Dispatch

Worker + contractor intake forms, dispatch SOPs, and daily operational checklists

Tracking & Scoring

Time tracking system, 5-tier worker scoring model, and outreach scripts

Compliance & Roles

Safety forms, payment structures, role definitions, and full compliance documentation

Database Architecture

Schema built for Google Sheets and Supabase — scalable, structured, and ready to operate

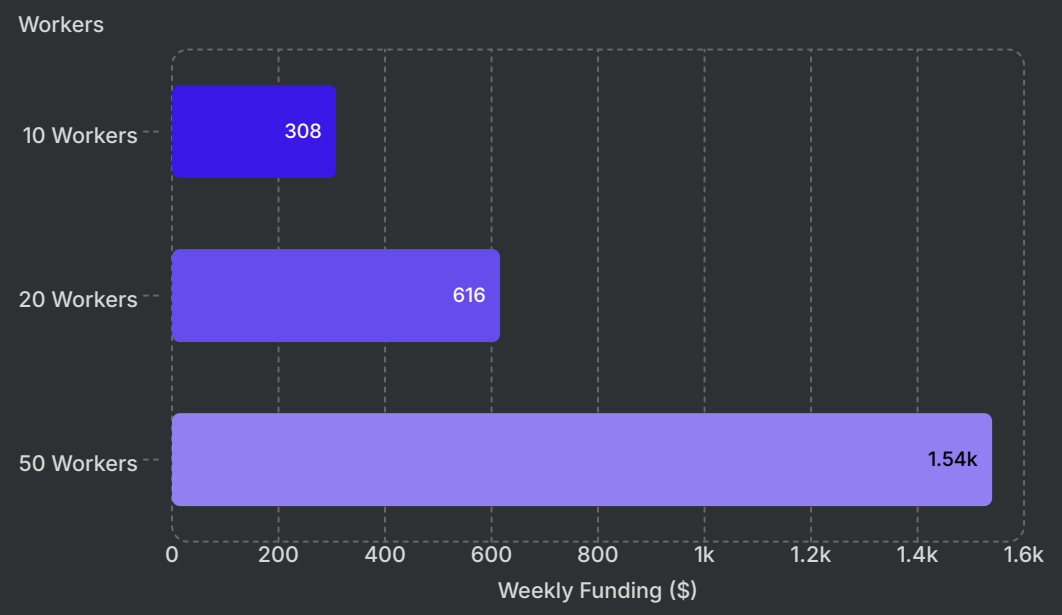
Made with GAMMA

Funding Model

Every Verified Hour Generates Revenue

At **$0.77 per verified hour**, apprenticeship funding scales directly with workforce volume. All hours are tracked, verified, and submitted through NBCA systems — creating a transparent, auditable revenue stream.

Growth in workers = direct, proportional growth in funding. No guesswork. No lag.



Made with GAMMA

Launch & Scale Plan

Growth is controlled and deliberate — workforce deployment always stays aligned with verified demand.

Phase 1 — Launch

5–10 workers · 3–5 jobs/day · Validate systems, build contractor trust, and establish dispatch rhythm

Phase 2 — Scale

15–25 workers · 8–12 jobs/day · Expand contractor relationships and deepen placement volume

Phase 3 — Dominate

30–50+ workers · 20+ jobs/day · Full operational capacity with regional contractor network in place

Ready for Immediate Execution

> This is not a concept. The system is built. The documentation is complete. The model is operational.

✅ System Built

23 operational documents complete

✅ Pipeline Structured

Workers, contractors, and tracking aligned

✅ Funding Model Active

$0.77/hr apprenticeship revenue ready to trigger

Awaiting approval for immediate launch. — NBCA: Building Legacy. Constructing Futures.
